OAQ Gazprom Neft (formerly OAQ Siberian Oil Company)
Notes to the Consolidated Financial Statements
As of June 30, 2006 and December 31, 2005

1. General

Basis of Financial Statements Preparation

These unaudited consolidated financial statements should be read in the context of the consolidated financial statements and notes thereto as of December 31, 2005. In the opinion of the Company, the information furnished reflects all known accruals and adjustments necessary for a fair statement of the result for the periods reported herein. All such adjustments are of a normal recurring nature. The Company's exploration and production activities are accounted for under the "successful efforts" method.

Minority Interest in Subsidiary Companies

Minority interest in the consolidated balance sheets reflects minority owners' percent share of shareholders' capital in subsidiaries. The minority interest is calculated based on the shareholders' equity of each subsidiary as determined under US GAAP. The actual ruble denominated balance attributable to minority interests may differ from this amount.

Minority owners' interest in the Company's subsidiaries is as follows:

	<u>June 30, 2006</u>		<u>December 31, 2005</u>

6. Assets Retirement Obligation

According to Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" ("SFAS 143"), the Company has potential asset retirement obligations associated with the conduct of its business activities. The accounting standard applies to legal obligations associated with the retirement of tangible long-lived assets. SFAS 143 requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred and a corresponding increase in the carrying amount of the related long-lived asset. Subsequently, the liability is accreted for the passage of time and the related asset is depreciated over its estimated useful life. The nature of the assets and potential obligations are as follows:

OAQ Gazprom Neft (formerly OAQ Siberian Oil Company)
Notes to the Consolidated Financial Statements
As of June 30, 2006 and December 31, 2005

Exploration and Production

The Company's field exploration, development, and production activities include assets related to: well bores and related equipment and operating sites, gathering and oil processing systems, oil storage and pipelines to main transportation trunks. Generally, its licenses and other operating permits require certain actions to be taken by the Company in the abandonment of these operations after the end of production. Such actions include well abandonment activities, equipment dismantlement and other reclamation activities. The Company's estimates of future abandonment costs consider present regulatory or license requirements and are based upon management's experience of the costs and requirement of such activities.

Management believes that present regulatory and permitting activities do not stipulate an obligation associated with abandoning of gathering and oil processing systems, oil storage and pipelines to main transportation trunks. As a result, the Company believes that it does not have clear or definitive legal or contractual obligations associated with activities to retire or otherwise abandon those assets.

Refining, Marketing and Distribution

This business segment covers refining operations and retail networks. The Company's refining operations consist of major industrial complexes. These industrial complexes have been in operation for several decades. Because of the nature of the operation of these complexes, management believes that these industrial complexes have indeterminable lives, while certain operating components and equipment have definite lives.

Management believes that present regulatory and permitting activities do not stipulate an obligation associated with abandoning these industrial complexes. As a result, the Company believes that it does not have clear or definitive legal or contractual obligations associated with activities to retire or otherwise abandon those assets.

Inasmuch as the regulatory and legal environment in Russia continues to evolve, there could be future changes to the requirements and costs associated with abandoning long-lived assets.

The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. An entity measures changes in the liability for an asset retirement obligation due to passage of time by applying an interest method of allocation to the amount of the liability at the beginning of the period. The interest rate used to measure that change is the credit-adjusted risk-free rate that existed when the liability was initially measured. That amount is recognized as an increase in the carrying amount of the liability and as an expense classified as an operating item in the statement of income.

The following summarizes the activity of the asset retirement obligations (in US\$ thousands)

In January 2002, the Company placed US\$ 250 million in 5-year Eurobonds on the Luxemburg Stock Exchange. The bonds bear interest of 11.5% per year. Subsequently, in March 2002, the Company extended the issue up to US\$ 400 million. All bonds have a semi-annual coupon. Accrued interest for the bonds of US\$ 17.8 million is accounted in current portion of long-term debt.

The Company has a US\$ 370 million (including a US\$ 47.3 million current portion) unsecured loan from Citibank and ABN-AMRO Bank maturing in July 2009, bearing floating interest at rates of LIBOR plus 0.6%.

The Company has an unsecured loan from Gazprombank repayable in rubles amounting to US\$ 77 million (all current). The loan bears an interest at rate of 6.5%.

Other borrowings represents a number of Ruble denominated unsecured borrowings from non-banking organizations totaling US\$ 5.0 million (including a US\$ 0.4 million current portion) with maturity dates from 2007 to 2011 bearing nil interest rate. As of December 31, 2005 other borrowings represented a number of Ruble denominated unsecured borrowings from non-banking organizations totaling US\$ 5.0 million (including a US\$ 0.3 million current portion) with maturity dates from 2006 to 2011 bearing nil interest rate.

The loan agreements contain financial covenants that require the Company's ratios of Consolidated EBITDA to Consolidated Interest Payable, Consolidated Indebtedness to Consolidated Tangible Net Worth, Consolidated Total Indebtedness to Consolidated EBITDA. Management believes the Company is in compliance with these covenants as of June 30, 2006.
